

## U.S. Congressional District Updates Needed for FDLD

The U.S. Government Printing Office (GPO) will start a project in early 2013 to update the Federal Depository Library Directory with any changes resulting from U.S. Congressional District reapportionment. Working with regional depository coordinators, GPO staff will research the U.S. Congressional District of each depository library in states where redistricting occurred and will update the Directory accordingly.

If you are aware that your library will move to a new U.S. Congressional District in 2013, please notify Library Services and Content Management's Outreach and Support staff via [FDLOutreach@gpo.gov](mailto:FDLOutreach@gpo.gov). We appreciate your assistance.

Submit questions or comments to [askGPO](http://askGPO.gov), and please select "Other Depository Library Issue" as the subcategory.
